I do not feel it is right for some one, or a group of someones to take away from others, that witch they can not control. The services that XM Radio is giving to its customers, such as truckers like my self, and all those who, spend much of thier time out on the road, find this service to very usefully. And in many ways it helps us do what we have to do, to get those things you and yours like to have, to you when you want them, and where you want them. So if you stop to think about it, If you take away, from us, that witch we need, you are only hurting yourself, in the long run. THINK ABOUT IT.....L O N G, AND V E R Y, VERY, VERY HARD..... AND DO THE RIGHT THING, FOR ALL OF US.

Thank you, TJ Lange
